

RSV for 48XX FLIGHT SURGEONS (48A/48G/48R)

Minimum currency levels have been set for many skills. These "basic readiness standards" imply a level of activity sufficient to maintain skills, but do not necessarily denote competency. Performance areas under each bold face subject should be assessed for knowledge in addition to demonstration. It is recommended that all Flight Surgeons review the resources listed as "suitable substitutes," regardless of ability to complete performance RSV items.

Skills Specific to AFSC

Skill Set	Knowledge/ Performance	Frequency	Training Sources (Recommended)	Verifier Initials	Verify Date	Member Initials
1. <u>OPERATIONAL MEDICINE</u>						
A. MISHAP RESPONSE: Participate in Aircraft mishap, HAZMAT, or mass casualty response exercises (Perform 2)	Performance	Q12M	Aerospace Medicine Primary (AMP 202) course, Aircraft Mishap Investigation and Prevention (AMIP) course, Local Exercises; - Suitable substitute if not available: -- Read Davis' <u>Fundamentals of Aerospace Medicine (4th Edition)</u> Ch 23, 25; -- Read SoUSAFFS' <u>Aircraft Mishap Investigation Handbook</u> -- Read home unit's CEMP, MCRP and DCP -- Read AFMAN 91-223			
B. PHYSIOLOGIC INCIDENT RESPONSE AND ANALYSIS: Provide appropriate medical response and perform follow-up analysis of incident (Perform 2)	Performance	2 Q24M	Aerospace Medicine Primary (AMP 202) course, Aircraft Mishap Investigation and Prevention (AMIP) course - Suitable substitutes if not available: -- Read Davis' <u>Fundamentals of Aerospace Medicine (4th Edition)</u> Ch 2-7, 23 -- Read AFMAN 91-223, 1.3.1.1. -- Complete AFSAS tutorial (available through AFSAS website)			
C. TRAVEL MEDICINE: Provide Medical Intelligence research and briefings, issue medical prophylaxis (Perform 2)	Performance	2 Q24M	Aerospace Medicine Primary (AMP 201) course, Global Medicine Course -- Read Davis' <u>Fundamentals of Aerospace Medicine (4th Edition)</u> Ch 26 -- Review KX Ram's Horn website information at https://kx2.afms.mil/kj/kx2/RAMPage/Pages/home.aspx -- Review malaria chemoprophylaxis principles and drug regimens; good info available at http://wwwnc.cdc.gov/travel/yellowbook/2012/chapter-3-infectious-diseases-related-to-travel/malaria.htm#1939			

RSV for 48XX FLIGHT SURGEONS (48A/48G/48R)

Skill Set	Knowledge/ Performance	Frequency	Training Sources (Recommended)	Verifier Initials	Verify Date	Member Initials
D. WATER AND FOOD SAFETY ASSESSMENT: Participate with Public Health in base Water Vulnerability Assessment and Food Vulnerability Assessment, to include attendance at local Wing outbrief	Performance	Q24M	Aerospace Medicine Primary (AMP 201) course - Suitable substitute if unable to participate in assessments: -- Review process, findings and remediation from last in-garrison WVA and FVA with Bioenvironmental Engineering and Public Health, respectively			
E. HUMAN FACTORS BRIEFINGS: Attend and provide briefings on human factors to IRC, Quarterly Wing Flying Safety Briefing, NVG course, or HUD tape reviews (Perform 2)	Performance	2 Q24M	Aerospace Medicine Primary (AMP 101) course, NVG Instructor Course - Suitable substitute if not available: -- Read Davis' <u>Fundamentals of Aerospace Medicine (4th Edition)</u> Ch 4, 6, 23, 25			
2. <u>AIR EVACUATION:</u> A. MEDICAL CLEARANCE: Perform medical clearance for Aeromedical Evacuation patients (Perform 5)	Performance	5 Q24M	Aerospace Medicine Primary (AMP 201) course - Suitable substitute if unable to perform clearances: -- Review principles of AE Clearance and mock cases with local 48A (if available) -- Review TRAC2ES function and completion of clearance forms with local SGA and 48A (if available)			
3. <u>HUMAN PERFORMANCE ENHANCEMENT</u> A. HUMAN PERFORMANCE SUSTAINMENT/COUNTER FATIGUE MANAGEMENT: Proper documentation and use of Go/No-Go Pills	Performance	Q24M	Aerospace Medicine Primary (AMP 101) course; - Suitable substitute if not available: -- Review Counter Fatigue medication policy and forms at https://kx2.afms.mil/kj/kx2/RAMPages/Pages/Toolkit.aspx -- Read 3: The Air Force Warfighter Endurance Management Guide https://kx2.afms.mil/kj/kx4/FlightMedicine/Documents/Standards/AF%20Warfighter%20Endurance%20Management%20Guide.pdf			
4. <u>OCCUPATIONAL MEDICINE AND INDUSTRIAL HYGIENE</u> A. INDUSTRIAL HYGEINE SHOP VISIT: Perform Category I, II, III worksite inspections with Bioenvironmental Engineering (Perform 2 of each Category)	Performance	6 Q24M	Aerospace Medicine Primary (AMP 101) course; - Suitable substitute if not available: None, all deployable FS required to perform in-garrison shop visits. If in-garrison location does not have sufficient Cat I or II shops, substitute with equivalent number in next-lower category; if needed, contact MAJCOM/SGP for alternative training location			

RSV for 48XX FLIGHT SURGEONS (48A/48G/48R)

B. SANITATION INSPECTION: Perform food service and sanitary facility (barber shop, CDC, etc.) site inspections (Perform 2 of each Category)	Performance	2 Q24M	Aerospace Medicine Primary (AMP 101) course; - Suitable substitute if not available: None, all deployable FS required to perform in-garrison shop visits. If in-garrison location does not have sufficient food or sanitary facilities, contact MAJCOM SGP for alternative training location			
5. PREREQUISITE CERTIFICATION A. CLINICAL FLIGHT MEDICINE PRIVILEGES CURRENT: Maintain Flight Surgeon privilege list as current; Can be waived by the MAJCOM SGPA based on demonstrated competence	Knowledge	Q24M	Aerospace Medicine Primary (complete series) course; No training required; managed by MTF Credentialing Function			

For Readiness Skills Verification Program questions, please contact the Air Force Expeditionary Medical Skills Institute (AFEMSI) office at 937-938-2905 DSN: 798-2905 and/or send correspondence to usafsam.ets.rsvm@us.af.mil. For comments or suggested changes to the content of the Readiness Skills Verification skills list, please contact your Surgeon General Consultant or Career Field Manager (CFM) through your MAJCOM. (Consultant and CFM list can be reached through the [AF Clinical Quality Website](#).
